Staci Freeman leads initiatives in information governance and records. She has worked in the legal industry in a variety of contexts including information governance, information technology, and project management.

Staci's information governance experience includes handling client transfers, legal holds, the security of electronic and physical client files, the lateral hire intake process, and retention practices. She also has significant information technology experience, including desk side and application support, project management, and people management.

Prior to joining Coblentz, Staci spent 21 years working for Texas-based law firm Jackson Walker LLP where she was the Manager of Risk and Records and was responsible for implementing the firm's information governance program and policies.

Staci received her Project Management Professional (PMP) certification from the Project Management Institute. She attended Arkansas State University and the University of Arkansas at Little Rock.
